PROFESSIONAL SUMMARY

Full-stack mobile and software developer actively working with Flutter, CUDA, and Federated Learning alongside a solid background in Java, Python, and MySQL. Experienced in building production-style applications integrated with Firebase and REST APIs, with a focused interest in privacy-preserving AI, parallel computing, and distributed systems.

RESEARCH INTERESTS

- Federated Learning & Privacy-Preserving AI
- GPU-Accelerated Computing & Parallel Processing
- Distributed Machine Learning Systems
- Mobile-Integrated AI Applications
- Edge AI & On-Device Machine Learning
- Digital Health Technology

TECHNICAL SKILLS

Languages	C, C++, Java, Dart, Python, Bash/Shell Scripting.
Operating Systems	Windows (Advanced), Linux (Ubuntu, Kali Linux) — CLI, system configuration, virtual machines, development environment setup.
Mobile Development	Flutter (Android & Web), Firebase (Auth, Firestore, FCM), REST API Integration, Responsive UI Design.
Web & Full-Stack	LMS Development (Admin/Teacher/Student Panels), Course & Enrollment Management, REST API Design, Python (Flask/FastAPI).
HPC & AI/ML	CUDA (C/C++), Federated Learning (Flower/PySyft), TensorFlow/PyTorch, NumPy, Pandas, Augmented Reality Integration.
Database & Backend	MySQL, Firebase Firestore, Database Schema Design, Backend Logic & Request Processing.
Tools & Platforms	Git & GitHub, VS Code, Android Studio, Postman, NVIDIA Nsight, Cisco Packet Tracer, Microsoft Office Suite, Virtual Machines.
Concepts	DSA, OOP, Networking, Parallel Computing, Distributed Systems, Privacy-Preserving AI, Software Engineering & QA, Predictive Analytics, Educational Technology, Agile/Scrum.
Multimedia	Video Editing, Presentation Development, Digital Content Creation, Educational Resource Management.

EDUCATION

University of Frontier Technology, Bangladesh <i>B.Sc. Engineering (Hons.) in Educational Technology & Engineering</i> CGPA: 3.67 / 4.00	Gazipur, Bangladesh 2022 – Present
Notre Dame College <i>Higher Secondary School Certificate (HSC)</i> GPA: 5.00 / 5.00	Dhaka, Bangladesh 2020
Shamsul Haque Khan School and College <i>Secondary School Certificate (SSC)</i> GPA: 5.00 / 5.00	Dhaka, Bangladesh 2018

PROJECTS

Learnify: Learning Management System • Built a full-featured LMS with dedicated Admin and Student panels. • Implemented course registration, enrollment management, and learning material distribution functionalities. • Designed an intuitive dashboard and navigation flow to support seamless digital learning experiences.	<i>Flutter — Firebase</i>
eSaudagar: E-Commerce Platform • Developed a full-featured cross-platform e-commerce application for online shopping. • Implemented core functionalities including product listing, user cart, checkout, and order management.	<i>Flutter — Firebase</i>

- Integrated **Firestore** for user authentication, real-time database sync, and push notifications.

AI Object Detection System

Python — Computer Vision

- Developed a **real-time object detection system** using computer vision techniques.
- Worked on improving **detection smoothness, recognition accuracy**, and support for uncommon objects.
- Integrated **AR-based concepts** to enhance interactive visual assistance capabilities.

Student Performance Prediction System

Machine Learning — Data Science

- Built **predictive models** to analyze historical student data and forecast academic performance.
- Applied **classification-based ML approaches** for identifying student performance categories.
- Focused on improving **educational decision-making** through data-driven insights and analytics.

Teacher Resource Sharing Platform

Educational Technology — Web Platform

- Collaborated on a platform for teachers to access **teaching aids** including slides, videos, lab manuals, and sample questions.
- Conducted **needs analysis** through educator interviews to identify resource gaps and teaching support requirements.
- Contributed to planning features that improve **accessibility and organization** of digital teaching materials.

CERTIFICATIONS

Creative IT Institute — Cybersecurity Workshop (hands-on training covering core security concepts, threat analysis, and defensive techniques)

Blockchain Online Workshop — Fundamentals of blockchain, decentralized systems, and distributed ledger technology

United Nations Climate Change (UN CC) — Children and Climate Change, How to Prevent E-Waste, Human Health and Climate Change, Introduction to Sustainable Finance, Becoming a Climate Champion, Mastering International Climate Negotiations

HONORS AND AWARDS

Dean's Award — 3 Consecutive Years	2023 – 2025
---	-------------

SSC Scholarship	2018
------------------------	------

JSC Scholarship	2015
------------------------	------

Junior Scholarship	2012
---------------------------	------

LANGUAGES

English	Professional Working Proficiency
----------------	----------------------------------

Bangla	Native
---------------	--------

German	Beginner
---------------	----------

EXTRA CURRICULAR ACTIVITIES

- **UFTB Programming Club** — **General Member**; contributed to organizing inter-department coding sessions
- **Notre Dame College Debate Club** — **General Member**; developed argumentation and public speaking skills through structured debates.
